Green Projects for Students  
The ultimate goal of making schools eco-friendly is to get the children involved in projects that help build a greener community. If the school uses renewable energy, recycles, and composts food waste, it demonstrates green living in action to children, parents, and people in the wider community.

The BP-Orsted project will produce green hydrogen at a refinery in north-west Germany powered by an offshore wind farm in the North Sea. In its statement, BP said it initially aims to build a 50 megawatt electrolyzer to replace 20% of natural gas-based hydrogen at the plant. The zero-emission production is expected to start in 2024.
