Gestures by Human ...

Because of the close coupling between language and manual gestures (Gentilucci & Corballis, 2006), it is possible that verbs coupled to manual gestures might be learned better through imitation than verbs coupled to non-manual gestures, as is the case for the locomotion verbs.

Download File PDF The Imitation Of Gestures A

Furthermore, while both object-manipulation and locomotion verbs can be goal-directed, locomotion verbs do not always denote intentional goal-directed activities (e.g., to stroll).

Effects of imitating gestures during encoding or during ...

Download File PDF The Imitation Of Gestures A

Neonatal imitation has been at the centre of much controversy over the past 35 years. Indeed, there has been considerable debate about the potential mechanisms and functions of neonatal imitation. The present study investigates an alternative function of the phenomenon that has not been discussed in the literature to date:
